CHANGE IN THE MANNER OF ELECTION OF COUNCILMEN.

The Councilmen-at-large elected in 1934, under a legislative act of 1933, which provided for a minority representation, were chosen by the voters of the entire City. An act of 1935 amended this law, and returned to the old system in vogue prior to the act of 1933, except that Councilmen are no longer elected from wards but from the six councilmanic districts as established by the Common Council in 1934.

Each councilmanic district will select party candidates in the primary, who will be voted for at the general election by the voters of the respective councilmanic districts. Party candidates for councilmen-at-large will be chosen by the voters of the City at large and will be voted for at the general election by the voters of the entire City.

Under the old system the City was divided into seven wards, from each of which a Councilman was elected, with three chosen at large, making a total of ten Councilmen. Under the present system the Council will consist of nine members, six from councilmanic districts, with three elected at large.

Special Ordinance No. 1, 1937.

Adopted, February 5, 1937.

AN ORDINANCE to decrease the appropriation in the Budget for the year 1937 in "Other Equipment Account", Fire Department, in the amount of \$400.00.

BE IT ORDAINED, By the Common Council of the City of Terre Haute:

SECTION 1. That the appropriation in the Budget for 1937 under "Other Equipment Account", Fire Department, be decreased in the amount of \$400.00.

SECTION 2. This Ordinance is passed at the same meeting at which it is introduced, and by unanimous vote of all Councilmen present, and there are present and voting more than two-thirds of the regularly elected members of said Common Council.

SECTION 3. This Ordinance shall be in full force and effect from and after its passage and approval by the Mayor.

This Ordinance was introduced to first reading by Councilman Clyde W. Andrews, and read by title only.

It was moved by Councilman Andrews, seconded by Councilman Jalbert, that unanimous consent be given to advance the Ordinance to second reading.

The motion was carried, and the Ordinance ordered advanced to second reading, by the unanimous consent of Council, as follows:

Ayes—Adamson, Andrews, Barnes, Barrett, Jalbert, Kiefner, Kohn, Mundell, Welch. Ayes, 9. Noes, none.

The Ordinance was then read in full.

Councilman Andrews, addressing the Council, said:

"This is an unusual procedure for this Council, that of taking an item out of the Budget passed for the year. However, the Legislature has given the Council the right to do this.

"The occasion of the proposed action is the action of the Board of Public Works and Safety in renting a Mack pumper for the Fire Department for a period of one hundred days at a cost of \$10.00 per day. This means an expenditure of \$1,000.00 from the item 'Other Equipment' of the Fire Department, money originally appropriated to buy fire hose and other needed equipment. There was on file unpaid bills against this fund of about \$350.00, which brings the total to be paid to \$1,350.00.

"We suppose the contract made by the Board of Public Works and Safety is legal, and that the City is in to pay the \$1,000.00 rental. So far as we can see now, this amount is over the dam. The purpose of this Ordinance is to take the remaining \$400.00 out of the Budget and thus save it from also going over the dam. I therefore move that the Ordinance be ordered engrossed and placed upon its passage."

The motion by Councilman Andrews to order the Ordinance engrossed and placed upon its passage was seconded by Councilman Kohn.

The motion was carried and the Ordinance adopted, by the following vote of Council:

Ayes—Adamson, Andrews, Barnes, Barrett, Jalbert, Kiefner, Kohn, Mundell, Welch.

SECTION 2. This Ordinance shall be in full force and effect from and after its passage by the Council and approval by the Mayor.

This Ordinance, which had been referred to the City Planning Commission, and approved by that body, was advanced to second reading and read in full.

It was moved by Councilman Barnes, seconded by Councilman Welch, that the Ordinance be ordered engrossed and placed upon its passage.

The motion was carried, and Ordinance adopted, by the following vote of Council:

Ayes—Adamson, Andrews, Barnes Barrett, Jalbert, Kiefner, Kohn, Mundell, Welch.

Ayes, 9. Noes, none.

Resolution No. 5, 1937.

Adopted, March 5, 1937.

WHEREAS, The Common Council of the City of Terre Haute, Indiana, did, on the 3rd day of July, 1899, under the provisions of General Ordinance No. 1, adopt a design for a City Seal, which provided for a City Seal two inches in diameter, carrying within the circle of the Seal a cut or representation of Fort Harrison, underneath it the inscription, "Fort Harrison, 1812," which for some unexplained reason never was prepared or actually used, and which, because of its historical significance, it is fitting should be adopted as a design for a City Seal for the City of Terre Haute; therefore, be it

RESOLVED, That the provisions of General Ordinance No. 1, 1899, adopted July 3, 1899, which defined and adopted a Seal for the City of Terre Haute, consisting of a circle two inches in diameter, in which is represented Fort Harrison, with the inscription, "Fort Harrison, 1812," be re-adopted as the design for a City Seal for the City of Terre Haute, and that the City Clerk be, and he is hereby directed to procure such a design for a City Seal, and that the expense for such Seal be paid out of the appropriation for 1937, "General Supplies" for the City Clerk's office.

Introduced by Councilman William W. Barnes.

It was suggested by Councilman Barnes that the City Clerk explain the situation as regarding the new City Seal proposed by the above Resolution.

The City Clerk explained that in checking up on the bound files of the Journal of Proceedings of the Common Council he had discovered that on July 3, 1899, the Common Council had adopted General Ordinance No. 1 providing for a new City Seal, with a cut or reproduction of Fort Harrison in the center of a two-inch disc, but for some unexplained reason the order never had been complied with. He said that William K. Hamilton, who had been City Clerk at the time, remembered the adoption of the Ordinance but could not recall why the new Seal never had been made. The City Clerk suggested that because of the historical significance of Fort Harrison it would be fit and proper that the new Seal should be made and used. He said the Assistant City Attorney had given the opinion that under the terms of the 1899 Ordinance the City Clerk probably has authority to go ahead and have the new Seal made, but that he preferred that the present Council should re-adopt the provisions of the original Ordinance in the way of a Resolution.

It was moved by Councilman Mundell, seconded by Councilman Kiefner, that the Resolution be adopted. The motion was carried, and the Resolution adopted, by the following vote of Council:

Ayes—Adamson, Andrews, Barnes, Barrett, Jalbert, Kiefner, Kohn, Mundell, Welch.

Ayes, 9. Noes, none.

On motion of Councilman Andrews, the City Clerk was given a vote of thanks for calling the attention of the Council to the old Ordinance providing for the significant new Seal.

Councilman Barrett called attention to the annexation Ordinances that had been introduced at this meeting and referred to a Special Committee. He said he hoped the Committee would act speedily upon the Ordinances as the persons filing the petitions were entitled to have their property annexed to the City. Both properties, he said, had once been in the City but had been disannexed, and they were entitled to have the original condition restored.

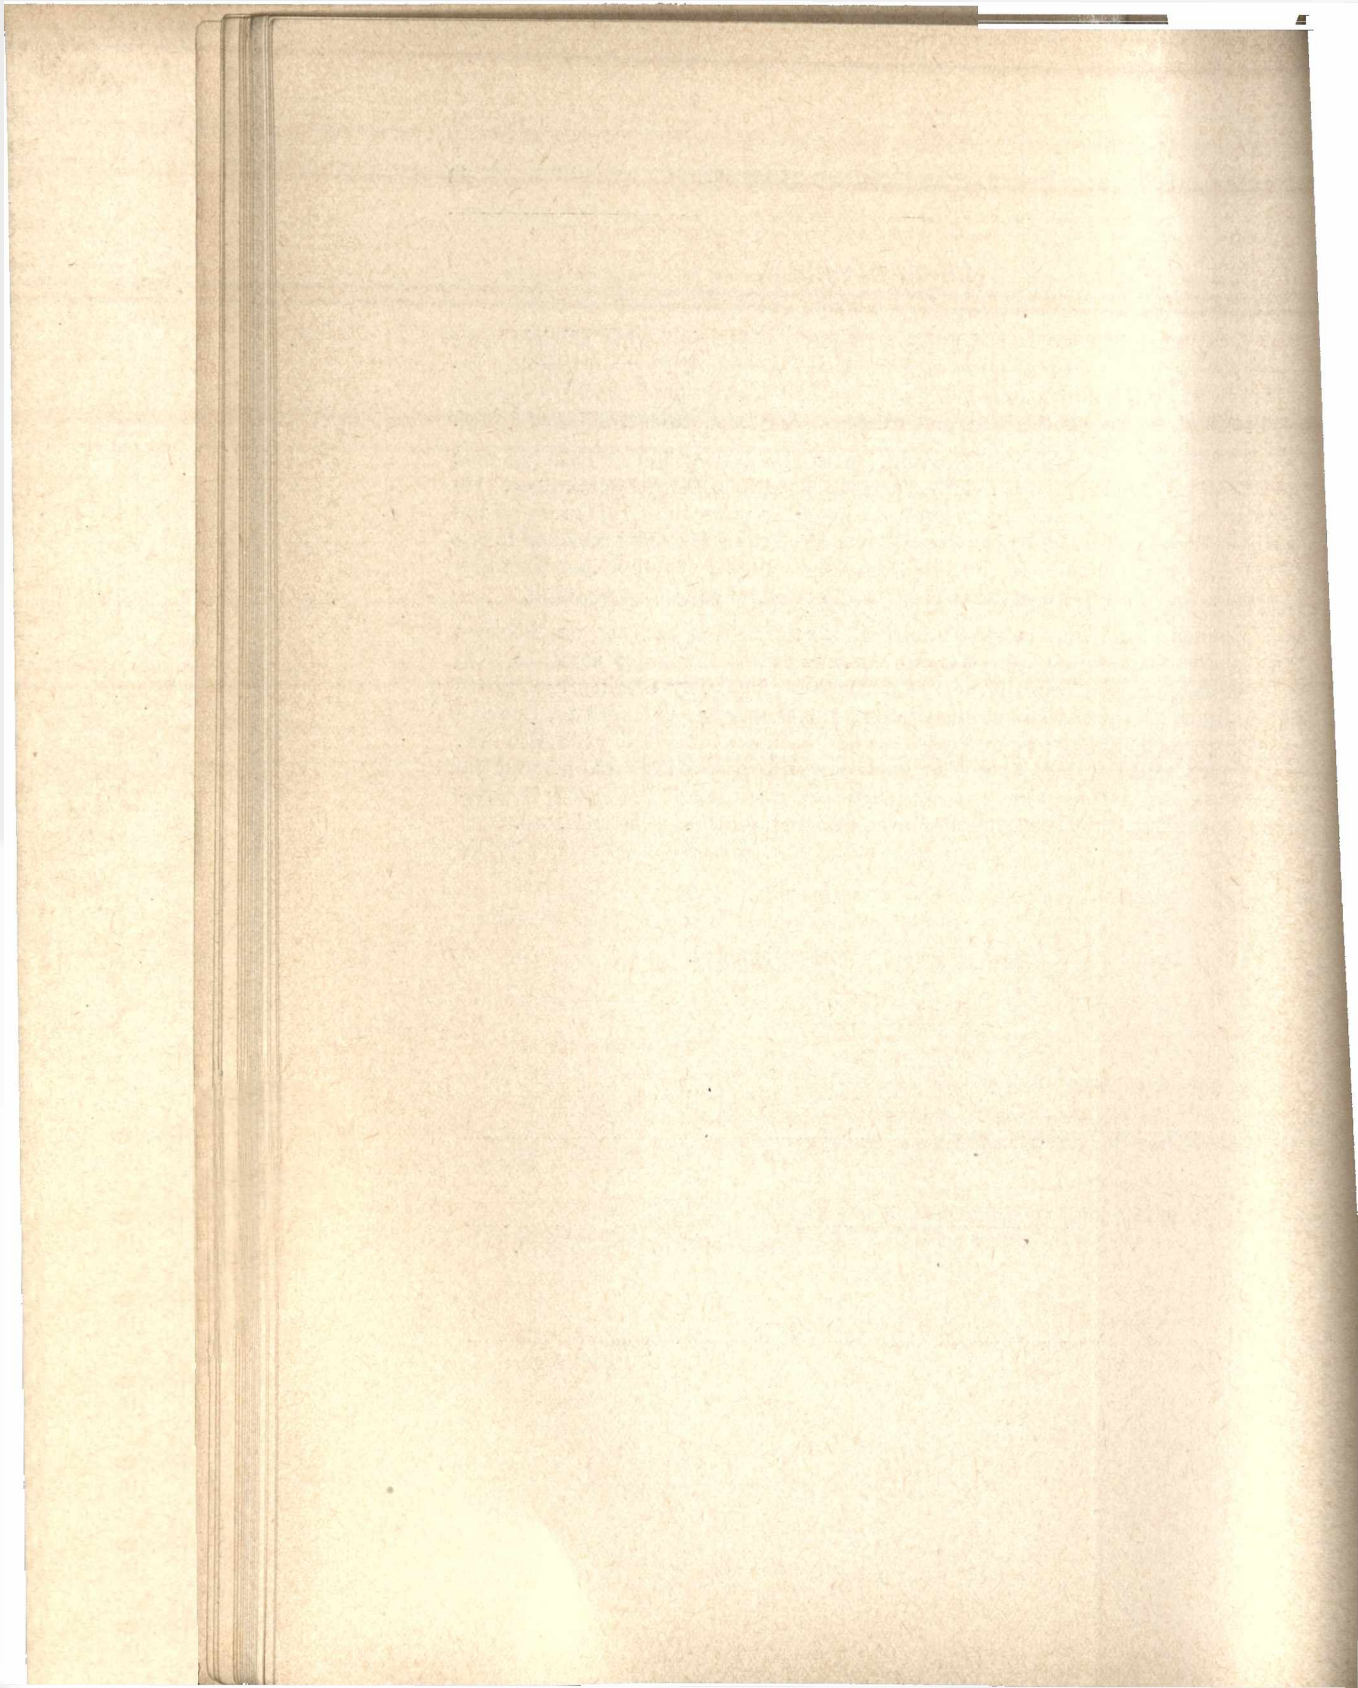

Councilman Welch asked if the Ordinance limiting parking on the west side of Seventh street from Wabash Avenue to the first alley south to five-minute periods had been properly advertised. The City Clerk presented to the Council the proofs of publication of the Ordinance referred to, General Ordinance No. 13, 1936, showing that it had been advertised according to law. Mr. Welch said the Ordinance was not being enforced as it should be, and the Assistant City Attorney said he would call the attention of the Traffic Department to the fact that the Ordinance was in force and should be enforced.

MISCELLANEOUS.

Councilman Carl E. Mundell called attention to the fact, made public through the newspapers, that a number of local industrial and business establishments had contributed toward the purchase of a new pumper for the Fire Department, notably the Wabash Fibre Box Company, the Columbian Enameling Company, the Terre Haute Malleable and Manufacturing Company, the Gartland Foundry, the Owens-Illinois Glass Company, the American Chain and Cable Company, the Western Chain Store Terminals, the American Can Company, the Valentine Packing Company, the Indiana Gas and Chemical Corporation, E. I. Du Pont De Nemours & Company, the Terre Haute Paper Company, and the Commercial Solvents Corporation.

He believed, he said, that the Common Council, on behalf of the City of Terre Haute, should give some evidence to these donors, to Mayor Beecher, for his efforts in securing the donations, and to Fire Chief Rowe for his assistance, of its appreciation of the public spirit and interest in the welfare of the City as shown by the substantial subscriptions that had been made to accomplish the purchase.

He therefore moved that the Council express its appreciation by a vote of thanks for the public spirit shown by the firms and corporations named, in their liberal donations to the fund for the purchase of the pumper for the Fire Department and to Mayor Sam Beecher and Fire Chief Albert W. Rowe. He moved further that the same expression of appreciation be voted to Mr. C. B. Thomas, for his donation to the Fire Department of a full set of diving apparatus for the use of that Department in recovering bodies of drowned persons.

The motion was adopted by the unanimous vote of Council.

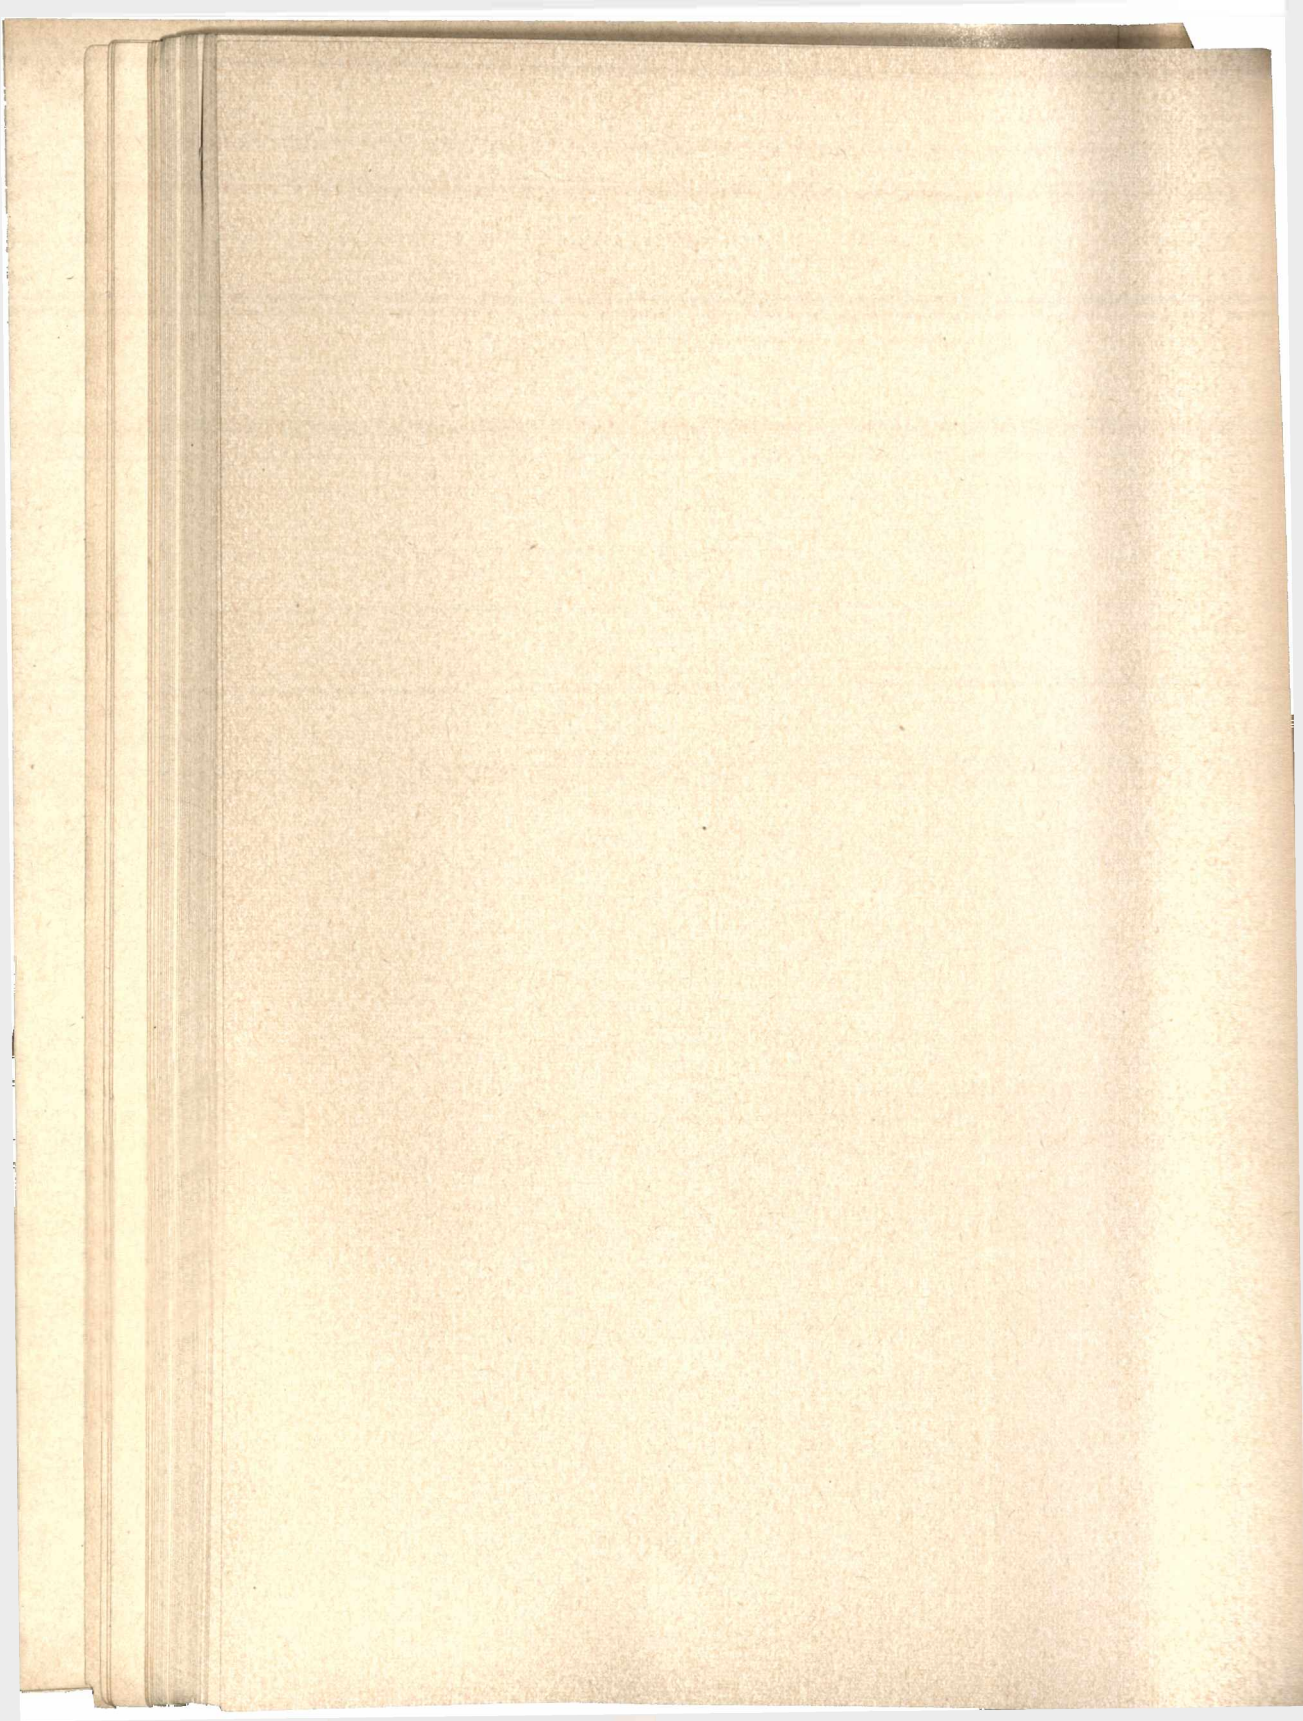

The monthly reports for May, 1937, of the following officials were submitted and ordered placed upon file, on motion of Councilman Welch, seconded by Councilman Jalbert: Superintendent of Highland Lawn Cemetery, Superintendent of Parks, Street Commissioner, Superintendent of Crematory, Clinic Investigator, Chief of Police, Chief of Fire Department, Inspector of Weights and Measures and the Plumbing Inspector.

"Gentlemen:

"We have this day in regular meeting discussed the merits of the petition at present being circulated about the city in regard to an Appropriation Ordinance for the building of some of our condemned and dilapidated fire houses and repair of others that need repairing.

"The Fraternal Order of Eagles, No. 291, of Terre Haute, Ind., with a membership of 728, wishes to go on record as favoring such an appropriation.

"We feel that this not only will fit into the present 'clean up' campaign now in progress but would also safeguard the valuable equipment housed in some of these fire houses.

"We also feel that inasmuch as the Federal Government is to supply a large part of the cost of this work it is a matter of economy that should not be overlooked.

BOARD OF PUBLIC WORKS AND SAFETY.

Terre Haute, Ind., June 18, 1937.

Hon. Sam Beecher, Mayor, and
Members of the Common Council of the
City of Terre Haute, Indiana.

Gentlemen:

The following is a letter just received from the Wm. P. Jungclaus Company regarding the claim for starting demolition of the old City Hall site:

"We are again referring to an account due us in the amount of \$2,398.83, for wrecking of the Fourth Street site, City Hall, Terre Haute.

"It has now been thirteen months since you have given us your order for this work. This order was dated, copy of which we are enclosing. We absolutely now are out of patience in having to wait any longer for our settlement on this work which we have done in good faith, and did it upon your orders. We are now making a demand for this unless same is forthcoming within the next ten days. We will be forced to place this in the hands of our attorney for collection. Of course, in this event, it will cause additional expense, and we are notifying you that we are absolutely insisting on this account being settled without any further delay.

"We ask that you reply to this letter and advise us what we might expect. Awaiting your reply, we are

Yours very truly,

WM. P. JUNGCLAUS COMPANY,
By F. W. Jungclaus, President."

This account has been hanging fire for sometime, and as we understand, there is a Resolution before the Council to grant the payment of this bill. This Resolution, however, as we understand, is held in Committee for report, and we are urging you to take action on this matter so as to avoid the legal complications which are threatening.

We are advised by Assistant City Attorney, Mr. Littlefield, that the claim is a valid one, and one which will have to be paid, and it seems to us that it would be a needless expense to have this matter taken into court. You will doubtless remember that this work was ordered in order to save the grant offered to the City by the Government, and proved effective.

As you will notice in Mr. Jungclaus' letter, we are given ten days to make up our minds, so we would appreciate some definite action on this matter tonight.

Thanking you, we are

Yours very truly,

BOARD OF PUBLIC WORKS AND SAFETY,

By W. ROBERT PAIGE,
President.

Brief History

Terre Haute's New City Hall

TERRE HAUTE'S NEW CITY HALL

TERRE HAUTE'S NEW CITY HALL

When Terre Haute City officials moved into the new City Hall the latter part of June, 1937, the movement was the culmination of the efforts of several City administration to secure a new City Hall to replace the obsolete structure at Fourth and Walnut streets, which had housed the City's officials since 1875.

The movement for the new building was initiated by Mayor Sam Beecher in November, 1935. He visited Washington several times in company with W. Robert Paige, City Engineer, and President of the Board of Public Works and Safety, before finally securing the support of the Public Works Administration of the Federal Government, which agreed to donate 45 per cent. of the estimated cost of the structure, amounting approximately to \$104,890. The total cost of the building was \$224,000.00, exclusive of furniture and fixtures.

In their efforts to secure an appropriation from the Public Works Administration the Mayor and the City Engineer were greatly aided by Terre Haute's Congresswoman, Mrs. Virginia E. Jenckes, who devoted much time to the effort to obtain the appropriation, and to whom full credit must be given for the successful application for Federal aid.

The site of the new building was secured through the efforts of the Banks of the Wabash Association, an organization formed several years ago to promote the best interests of that section of the City lying west of Fifth street. The Association optioned the property on the west side of Harding Avenue, better known as Second Street, facing the Vigo County Court House. The Association collected by public subscription in excess of \$17,000.00 to apply on the purchase price and reduce the bond issue for that purpose. Practically \$5,800.00 of the subscribed funds were ultimately returned to subscribers.

The Common Council approved a bond issue for \$130,000.00, to be used, with the Federal funds, to erect the building, and also approved a bond issue for \$17,500.00 towards the purchase of the site.

The firm of Miller & Yeager, architects, was engaged to prepare the plans and specifications for the proposed building, and the contract was let on the 12th day of December, 1935, to the W. P. Jungclaus Co., of Indianapolis.

Ground was broken about the 1st of March, 1936. The plans and specifications called for a steel and reinforced concrete building of three stories and basement and a penthouse, with the exterior of Indiana Bedford limestone. The corner stone was laid on August 20, 1936, with appropriate

Masonic ceremonies, in charge of the Most Worshipful Grand Lodge of Indiana. From that time on the work was hurried, being halted at times only by the slowness in the delivery of steel required in the work.

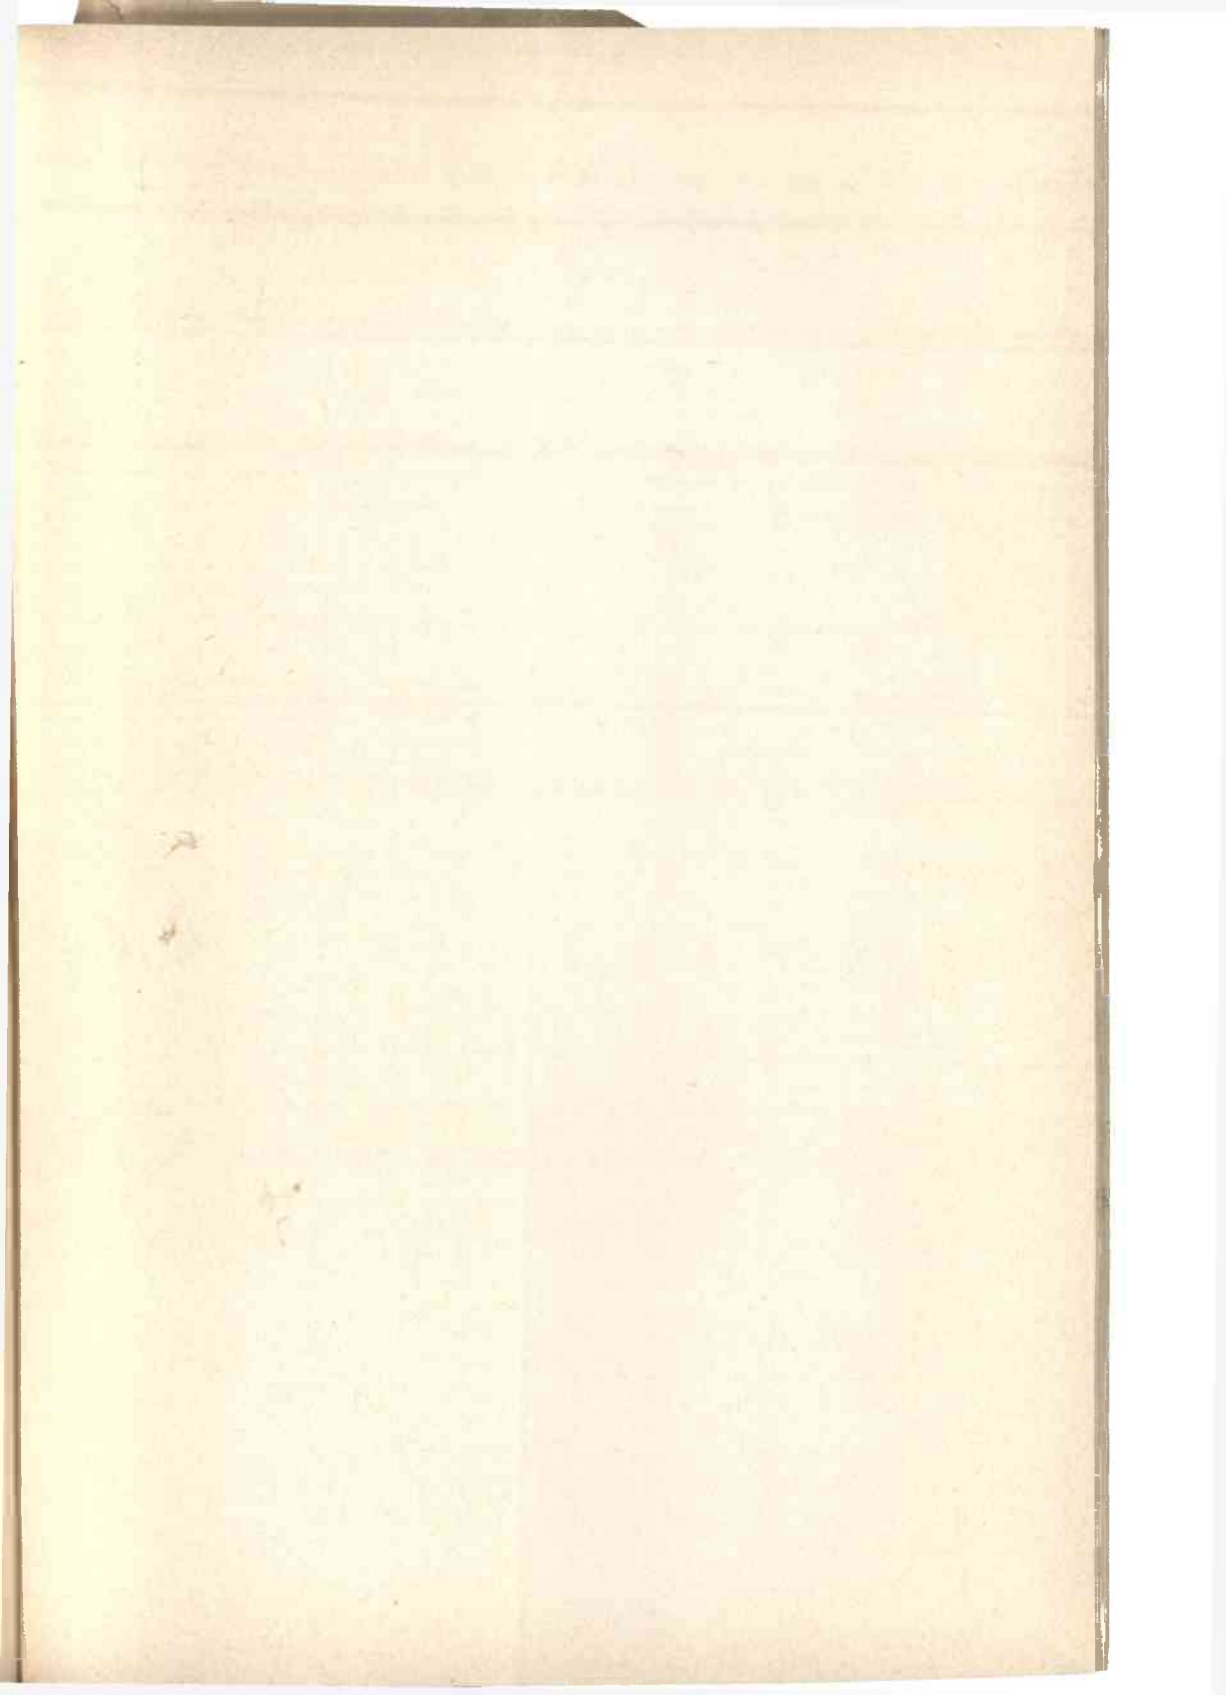

The old site of the City Hall at Fourth and Walnut streets was sold to H. N. Oakley for business purposes, and during the erection of the new building the City offices were located in the old James Hook school, at Fourth and Mulberry streets. The use of the school building in the emergency was granted graciously by the Trustees of the School City of Terre Haute, free of rent.

The following offices are located on the first floor of the new building: Mayor, City Clerk, City Judge, Police Department, Police Matrons, Street Commissioner and City Court. On the second floor are the City Engineer, Board of Public Works and Safety and Clerk to the Board, City Controller, City Attorney, Board of Health, Sealer of Weights and Measures, and the Electrical, Plumbing and Building Inspectors. On the third floor are located the Board of Examining Engineers, and the Council Chamber, while in the fourth floor penthouse are located the radio operators of the Police Department. From the penthouse extends to a height of 125 feet from the ground the antennae of the radio equipment.

The offices throughout the building are finished in fumed oak, and all will be equipped with new steel furniture, uniformly finished in a shade of green. New steel vaults have been installed in the principal offices throughout the building. The offices are all equipped with Venetian blinds.

All the furniture and equipment of the new building were furnished through the local representatives of the manufacturers. The furniture was installed by the Moore & Langen Company, the Venetian blinds by Robert N. Kadel, the chairs by the Craft Bookstore, while the Root Dry Goods Company furnished the draperies for the Mayor's office.

The first meeting of the Common Council in the new City Hall was held on July 2, 1937, with the Councilmen, Adamson, Andrews, Barnes, Barrett, Jalbert, Kiefner, Kohn, Mundell and Welch, all present, and President Claude E. Adamson in the Chair.

3. The Companies shall pay to the City the sum of Three Thousand One Hundred and Forty-Six Dollars (\$3,146.00) in cash upon the execution of this agreement and its final approval by the Common Council of said City, approval by Marion Superior Court, Room 5, and Final Order by Public Service Commission of Indiana for abandonment of said track.

4. It is further expressly understood and agreed by and between the parties hereto that from and after the payment to said City by said Companies, or either of them, of said sum of Three Thousand One Hundred and Forty-Six Dollars (\$3,146.00), as hereinbefore provided for, the said Companies and their respective successors and/or assigns and each of them, shall be relieved —

(d) The City shall save the Companies, and each of them, and their respective successors and/or assigns, harmless from any claims or liability for injuries or damages asserted by any person or persons, and which may be attributed to the failure to repair or renew the particular portion of the several streets hereinabove described, wherein the said tracks, trolley poles and/or trolley wires are now located; provided, however, that any and all liability of the Companies, or of any or either of them, existing at the time this contract becomes effective, to any person or persons for loss, damage or injury to any person or persons or property occurring or in anywise relating to or growing out of the occupancy of any of said portions of said streets, alleys and/or public places as hereinabove described, by the Companies or any or either of them, shall not be impaired by the execution of this agreement, and the City shall not be construed as agreeing to save the Companies or any or either of them, harmless from any claim for injuries or damages which occurred prior to the approval of the execution of this agreement by the Common Council of the City, whether the claim or claims therefor are asserted before or after such approval, and provided further that nothing herein contained shall be construed as enlarging the legal obligation or responsibility of the City to Third persons in respect to its duty to maintain the streets for highway purposes.

5. It is understood that the execution of this agreement shall not be effective until the Common Council of said City shall have, by proper resolution, duly ratified, approved and confirmed the signing thereof by the members of the Board of Public Works of said City.

6. It is hereby expressly understood and agreed by and between the parties hereto, that in consideration of the mutual benefits and advantages to be derived from this agreement by each and all of said parties, that the City of Terre Haute shall, and that it does, hereby grant unto the said Companies and each of them, the right, privileges and franchise of establishing and maintaining bus routes for the transportation of passengers as a common carrier as follows:

And it is further understood and agreed that the grant of the foregoing franchise and privilege to operate said buses shall constitute a certificate of convenience and necessity to said Companies or any of them to maintain and operate the said buses over the route or routes hereinbefore described, to the extent that the laws of the State of Indiana authorize said City to grant such certificates of convenience and necessity.

It is further understood and agreed by and between the parties that the said franchise and certificate of convenience and necessity shall become effective when and if the Public Service Commission of the State of Indiana shall grant to the said Companies permission and authority to abandon and discontinue the use of the street railway lines hereinabove described and shall have granted to said Companies the necessary authority to establish, maintain and operate the said bus lines in lieu of said street railway lines, to the extent that such authority is required from said Public Service Commission under the laws of the State of Indiana.

7. It is also expressly understood and agreed that this agreement shall not be binding upon the parties hereto unless and until the execution of this instrument shall have been approved by the Marion Superior Court, Room 5, of Marion County, Indiana.

8. This agreement is made and executed by the said Bowman Elder in his capacity as Receiver of Indiana Railroad and nothing herein contained shall be held or construed to create upon him any liability whatever in his personal or individual capacity.

MISCELLANEOUS.

The following reports for the month of July were presented, and on motion of Councilman Welch, seconded by Councilman Kohn, and by viva voce vote, were ordered placed on file: Inspector of Weights and Measures, Chief of Police, Police Matrons, Building Inspector (also, reports for six months ending June 30, 1937), Secretary Board of Health, Chief of Fire Department, Clinic Investigator, Electrical Inspector, Superintendent of Crematory, Superintendent of Highland Lawn Cemetery, Superintendent of Paul Cox Municipal Airport, Plumbing Inspector (also, report for June, 1937), Superintendent of Parks, and Street Commissioner.

Councilman Andrews called attention to the fact that an interesting history of the new City Hall had been made a part of the July "Proceedings of the Common Council," and while the author's name was not given it was well understood that it had been prepared by the City Clerk. He believed, he said, that it should not pass unnoticed, and he therefore moved that a vote

of thanks be extended the City Clerk for the work named. The motion was seconded and carried by unanimous viva voce vote of Council.

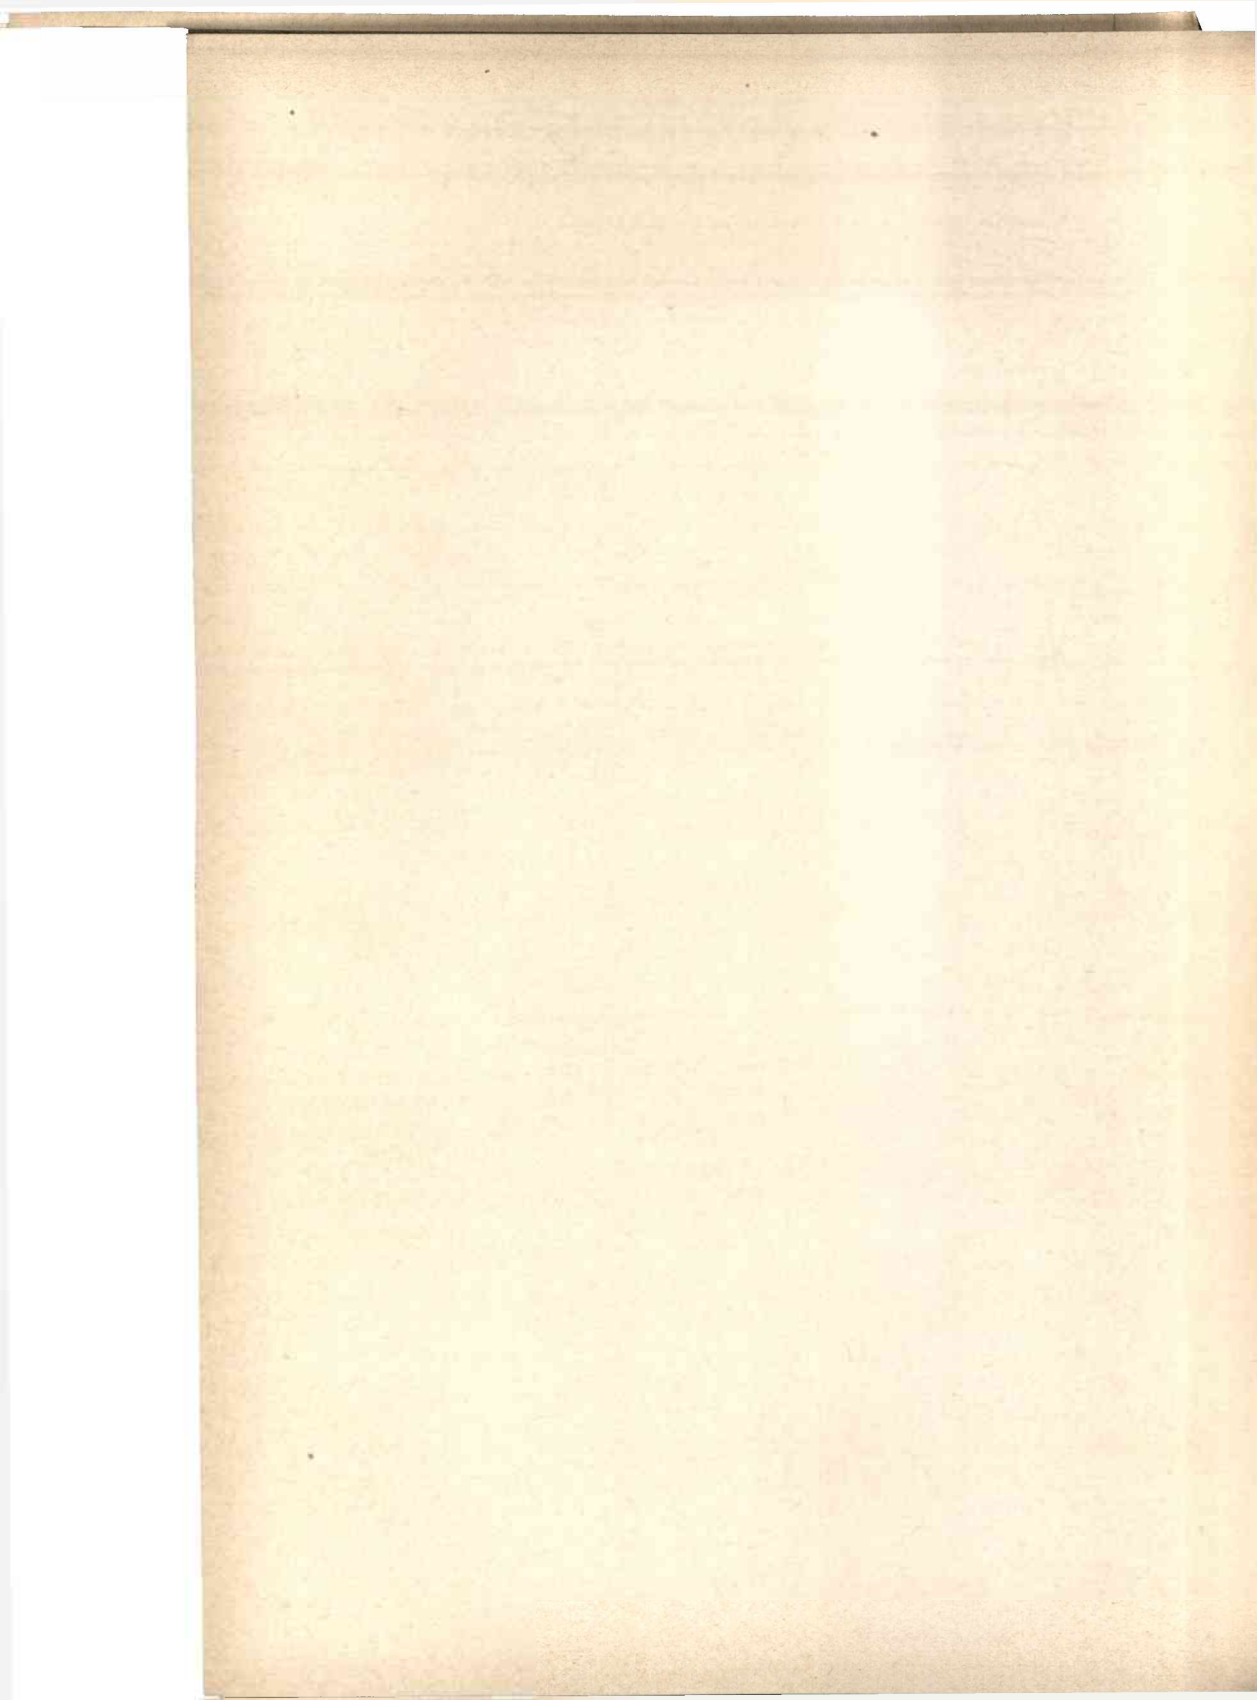

The City Clerk in acknowledging the courtesy paid him said that the cut used in the history of the new City Hall had been loaned him by the Year Book Committee of the American Legion Committee, which had had the cut made to use in the Year Book, issued as commemorative of the annual convention of the Legion to be held in Terre Haute, August 21, 22, 23 and 24, 1937.

SECTION 3. This Ordinance shall be in full force and effect from and after its passage and approval by the Mayor.

Submitted by Councilman Marvin Kohn.

This Ordinance, whose passage had been recommended by the Committee on Finance, Accounts and Claims after amendment by substituting the Section 2 submitted by the Committee, was amended as ordered, advanced to second reading, and read in full as amended.

It was moved by Councilman Kiefner, seconded by Councilman Jalbert, that the Ordinance be ordered engrossed and placed upon its passage. The motion was carried, and Ordinance adopted, by the following vote of Council:

Ayes—Adamson, Andrews, Barnes, Barrett, Jalbert, Kiefner, Kohn, Mundell, Welch. Ayes, 9. Noes, none.

Also, the following:

Terre Haute, Indiana, September 3, 1937.

To the President and Common Council of the
City of Terre Haute, Indiana.

Gentlemen:

Your Committee on Finance, Accounts and Claims, to whom was referred Special Ordinance No. 2, 1937, recommend that Section 1 of said Ordinance be amended to read as follows:

SECTION 1 BE IT ORDAINED By the Common Council of the City of Terre Haute, Indiana, that the Tax Levy and rate thereof for the ensuing year, 1938, for the City of Terre Haute, Indiana, be and the same is hereby fixed and established as follows, to-wit:

General Fund	\$1.10
Sinking Fund095
Park Maintenance07
Park District08
Firemen's Pension04
Policemen's Pension04
Airport Maintenance01
	<hr/>
	\$1.435

Said amount to be levied and collected upon each one hundred dollars of property returned for taxation in said City.

BE IT FURTHER ORDAINED, That there shall be collected from each male inhabitant liable according to law, a Poll Tax of \$2.00 during the said year of 1938.

And that the Ordinance as thus amended do pass.

Because of Legislative Acts in 1937 it was necessary to increase the levy for Policemen and Firemen's Pension Funds two cents each. Because of bond issues coming due in 1938 it was necessary to increase the Sinking Fund from seven cents to nine and one-half cents. We have made these

necessary increases and still held the total rate down to within five cents of last year.

Respectfully submitted,

CLYDE W. ANDREWS,
CLAUDE E. ADAMSON,
MARVIN KOHN,

Committee on Finance, Accounts and Claims.

(1) **Ownership of System—Service Lines.** Company will, in accordance with the terms of this agreement, furnish, provide, install, own, operate and maintain the necessary transmission and distribution lines, wires, conduits, conductors, cables, masts, towers, poles, posts, transformers, lamps, fixtures and other appliances and structures for furnish-

ing overhead street lighting service to Municipality. The ownership of the property comprising said overhead street lighting system is and shall remain in Company; and the termination of this agreement for any reason whatsoever shall not in any way affect such ownership by Company, nor deprive Company of the right either to remove any or all property comprising such system or any part thereof or to use the same in, or in connection with, the rendering of other public utility service by Company.

Company shall erect the service lines necessary to supply energy to the said overhead street lighting system within the limits of the public streets and highways of Municipality or on private property as mutually agreed upon by the parties. Municipality shall assist Company, if necessary, in obtaining adequate written easements covering permission to install and maintain any service lines which it may be desirable to install upon private property.

Company shall not be required to pay for obtaining permission to trim or re-trim trees where such trees interfere with any service lines or wires of Company used for supplying electric energy to the overhead street lighting system. Municipality shall assist Company, if necessary, in obtaining permission to trim trees when Company is unable to obtain such permission through its own best efforts.

(2) **Lighting Hours.** The lighting hours for the said overhead street lighting system shall be on an "all-night" schedule which provides that lamps are to be lighted from approximately one-half ($\frac{1}{2}$) hour after sunset until approximately one-half ($\frac{1}{2}$) hour before sunrise each day in the year.

(3) **Maintenance of Lighting System.** Company will repair and/or replace and maintain all equipment owned by Company, including lamps and glassware, which may be necessary to provide continuous operation of the overhead street lighting system.

(4) **Continuity of Service.** Company does not guarantee uninterrupted service from the overhead street lighting system to be operated in accordance with this agreement, and shall not be liable for any interruptions of service when such interruption is without willful default or neglect on the part of Company, or is due to any cause beyond the control of Company including, but not limited to, strikes, lockouts, riots, insurrections, war, acts of the public enemy, fire from any cause, explosions, accidents, restraint of government, state or municipal interference, breakdowns, injuries to machinery, transmission or distribution systems, necessary repairs and renewals, or acts of God; but Company shall make all reasonable efforts to renew promptly the operation of the overhead street lighting system in the event of any interruption to the service.

(5) **Liability.** Company shall protect and save Municipality harmless from any and all loss, damage or liability proximately caused by the negligence of Company in the installation and/or maintenance of the overhead street lighting system, but this shall not be construed as any assumption of any liability for injury to or death of any person, or for damage to any property caused by the failure of any lamp or lamps to operate.

(6) **Changes in Lamp Location.** Company will change the location of any lamp or lamps constituting a part of the overhead street lighting system, which are, or may be, installed and/or operated under the terms of this agreement. Any such change in lamp location will be made only upon written order from Municipality. The actual cost and expense of making each such change in lamp location shall be borne by Municipality.

(7) **Additional Lamps.** Company shall, subject to the conditions stated hereinbelow, install additional overhead lamps of any of the standard sizes included in this agreement, at such locations as may be legally ordered in writing by Municipality. Municipality agrees that the size of lamp as specified in its order shall not be reduced during the term of this agreement, and also agrees that each additional lamp ordered by Municipality shall, for the purpose of arriving at the minimum number of lamps to be operated by Company and paid for by Municipality under the terms of this agreement, be added to the minimum number set out in "SCHEDULE OF LAMPS".

Any additional lamp or lamps so ordered shall be operated and maintained subject to the same terms and conditions which apply to the original installation. Municipality shall accept service from and pay for any such additional lamp or lamps so long as this agreement remains effective.

The ownership of all additional lamps, equipment and system installed in accordance with the terms hereof, shall be and remain in Company, and shall be subject to removal and/or other use by Company in the same manner as property originally installed or furnished hereunder.

Company shall install, at its own expense, any additional lamp or lamps ordered by Municipality, provided, however, that the cost of installing any such additional lamp or lamps does not exceed three times the annual amount to be paid by Municipality (at the rates set out herein under "SCHEDULE OF RATES") for street lighting service from the additional lamp or lamps ordered. If the cost of installing any such additional lamp or lamps shall exceed three times the annual amount to be paid by Municipality for said street lighting service from such additional lamp or lamps ordered, then such excess cost of installing such lamp or lamps shall be paid for by Municipality.

Company shall install any additional lamp or lamps as soon as practicable after the receipt by Company of the written order from Municipality. Such order shall not require Company to install additional lamps at any time prior to thirty (30) days nor later than ninety (90) days after receipt by Company of such order.

(8) **Payments for Service.** Municipality shall accept service hereunder and pay for the same on the basis of each and every lamp installed and operated in accordance with the original number of lamps as set out in the "SCHEDULE OF LAMPS" of this agreement, and such additional lamps as may be installed in accordance with Paragraph (7) above: provided, however, that whenever Municipality shall order Company to increase the size of any lamp supplied hereunder, payments thereafter shall, because of such change, be increased in accordance with the schedule of charges herein set out in "SCHEDULE OF RATES" for the

size lamp ordered. Bills for overhead street lighting service hereunder shall be presented monthly by Company.

Subject to deductions for outage credits as herein provided and to increases as hereinabove in this section provided in case lamps of greater size are ordered installed by Municipality, the bills for overhead street lighting service to be submitted by Company to Municipality for any month, shall be in an amount equal to one-twelfth (1/12) of the annual charges herein provided for the original number of lamps to be supplied as set forth in "SCHEDULE OF LAMPS" hereof, and for any additional lamps supplied under the provisions of Paragraph (7) above. After such bills have been presented for overhead street lighting service rendered during the preceding month, Municipality shall make full payment within the ten (10) days immediately following the date for the next regular meeting of the proper municipal authorities having the approval of such bills.

(9) **Delinquency.** If Municipality shall fail to pay any sum or sums of money as the same become due and payable for overhead street lighting service rendered under the terms of this agreement, and such delinquency continues for a period of thirty (30) days or longer, Company shall have the right to discontinue service to the overhead street lighting system until such sum or sums of money shall have been fully paid; or Company shall have the right to cancel this agreement in its entirety and may, at its option, remove any parts or all of the overhead street lighting equipment and system. Such discontinuance, cancellation or removal shall not release Municipality from any sum or sums of money owing to Company for overhead street lighting service theretofore furnished to Municipality nor relieve Municipality of liability to respond in damages for such violation of the terms of this agreement.

(10) **Deduction for Outage Credit.** Municipality, through its Police Department or other authorized agent, shall make a report of any lamp or lamps which are out of service during proper lighting hours. A copy of such report shall be delivered to Company's local or district office, or to such representative as Company may designate to receive such reports.

Company shall restore any lamp or lamps to service before the proper hour for lighting on the same day as reported if the report of lamp outage is received before the hour of 12 o'clock noon, or Company shall restore any lamp or lamps to service before the proper hour for lighting on the next succeeding day if the report of lamp outage is received after the hour of 12 o'clock noon. In the event of the failure to restore any lamp or lamps to service as hereinbefore provided after receipt of the report hereinbefore provided for, Municipality shall, for each such lamp outage, receive a deduction for outage credit from the payment for overhead street lighting service for the current month in accordance with the provisions of the "SCHEDULE OF OUTAGE CREDITS".

Such deductions for outage credit shall constitute the only liability that Company assumes or shall have because of the failure of any lamp or lamps to operate during lighting hours, and Company shall not be

liable either to Municipality or to any third party or parties for any claims for damages directly or indirectly attributable to such lamp outage.

(11) **Rate Changes.** Should there be any change in the rates charged by Company for similar street lighting service to municipalities of the same class as the municipality which is a party to this agreement, the latter shall have the right to receive the same rates by entering into a new agreement therefor.

SECTION VI. This agreement shall become effective and binding upon the parties hereto when and as soon as it is approved by PUBLIC SERVICE COMMISSION (Indiana). Service under this agreement shall commence as soon as practicable but in no event later than 180 days after the date this agreement is approved by said COMMISSION, and Company shall notify Municipality in writing as to the date on which service hereunder will be commenced. Unless and until otherwise ordered by said COMMISSION, the fixed term of this agreement during which Municipality shall take and Company shall render service hereunder, shall be until the 1st day of July, 1948, and after the said original fixed term this agreement shall continue in force and effect until one of the parties hereto gives the other party hereto sixty (60) days' written notice of its intention to discontinue the furnishing or receiving of service hereunder.

SECTION VII. From and after the date when service is commenced under this agreement, this agreement shall supersede any and all existing agreements between the parties hereto under the terms of which overhead street lighting service is supplied by Company to Municipality, and all such other agreements as to overhead street lighting service or insofar as they cover overhead street lighting service, shall be deemed terminated and cancelled as of such date: provided, however, that such termination or cancellation shall not preclude or destroy the right of either party hereto thereafter to commence an action, and recover, for any unpaid bills or other damages resulting from any breach of such other agreement during the time the same was in force and effect.

SECTION VIII. All terms and stipulations heretofore made or agreed to in respect to overhead street lighting service by Company to Municipality, subsequent to the commencement of service hereunder, are merged into this written agreement, and no previous or contemporaneous representations or agreements made by any officer, agent or employee of Company or Municipality shall be binding upon either party in connection with the rendering or receiving of overhead street lighting service hereunder unless contained herein.

SECTION IX. Municipality represents and covenants that all things required by law precedent to the lawful execution by Municipality of this agreement have been prepared, given, held, submitted, furnished and properly done and performed.

SECTION X. This agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors or assigns.

IN WITNESS WHEREOF the parties hereto have caused quadruplicate copies of this agreement to be duly executed by their respective duly author-

ized proper officers, and their respective corporate seals to be duly affixed to such quadruplicate copies, and properly attested, all as of the day, month and year first above written.

SECTION V. The operation of the said ornamental street lighting

system, and the supplying of electric energy therefor, shall be in accordance with the following provisions:

(1) **Ownership of System — Service Lines.** Company will, in accordance with the terms of this agreement, furnish, provide, install, own, operate and maintain the necessary transmission and distribution lines, wires, conduits, conductors, cables, masts, towers, poles, posts, transformers, lamps, fixtures and other appliances and structures for furnishing ornamental street lighting service to Municipality. The ownership of the property comprising said ornamental street lighting system is and shall remain in Company; and the termination of this agreement for any reason whatsoever shall not in any way affect such ownership by Company, nor deprive Company of the right either to remove any or all property comprising such system or any part thereof or to use the same in, or in connection with, the rendering of other public utility service by Company.

Company shall erect the service lines necessary to supply electric energy to the said ornamental street lighting system within the limits of the public streets and highways of Municipality or on private property as mutually agreed upon by the parties. Municipality shall assist Company, if necessary, in obtaining adequate written easements covering permission to install and maintain any service lines which it may be desirable to install upon private property.

Company shall not be required to pay for obtaining permission to trim or re-trim trees where such trees interfere with any service lines or wires of Company used for supplying electric energy to the ornamental street lighting system. Municipality shall assist Company, if necessary, in obtaining permission to trim trees when Company is unable to obtain such permission through its own best efforts.

(2) **Lighting Hours.** The lighting hours for the said ornamental street lighting system shall be on an "all-night" schedule which provides that lamps are to be lighted from approximately one-half ($\frac{1}{2}$) hour after sunset until approximately one-half ($\frac{1}{2}$) hour before sunrise each day in the year.

(3) **Maintenance of Lighting System.** Company will repair and/or replace and maintain all equipment owned by Company, including lamps and glassware, which may be necessary to provide continuous operation of the ornamental street lighting system.

(4) **Continuity of Service.** Company does not guarantee uninterrupted service from the ornamental street lighting system to be operated in accordance with this agreement, and shall not be liable for any interruptions of service when such interruption is without willful default or neglect on the part of Company, or is due to any cause beyond the control of Company including, but not limited to, strikes, lockouts, riots, insurrections, war, acts of the public enemy, fire from any cause, explosions, accidents, restraint of government, state or municipal interference, breakdowns, injuries to machinery, transmission or distribution systems, necessary repairs and renewals, or acts of God; but Company shall make all reasonable efforts to renew promptly the operation of the ornamental street lighting system in the event of any interruption to the service.

(5) **Liability.** Company shall protect and save Municipality harmless from any and all loss, damage or liability proximately caused by the negligence of Company in the installation and/or maintenance of the ornamental street lighting system, but this shall not be construed as any assumption of any liability for injury to or death of any person, or for damage to any property caused by the failure of any lamp or lamps to operate.

(6) **Changes in Lamp Location.** Company will change the location of any lamp or lamps constituting a part of the ornamental street lighting system, which are, or may be, installed and/or operated under the terms of this agreement. Any such change in lamp location will be made only upon written order from Municipality. The actual cost and expense of making each such change in lamp location shall be borne by Municipality.

(7) **Additional System or Lamps.** The installation of an additional ornamental street lighting system or the installation of an additional ornamental lamp or lamps to the system herein contracted for, and the connecting to and/or furnishing of electric energy to such additional ornamental street lighting system, lamp or lamps shall be subject to a separate or supplemental agreement for any such additional ornamental street lighting system, lamp or lamps.

(8) **Payments for Service.** Municipality shall accept service hereunder and pay for the same on the basis of each and every lamp installed and operated in accordance with the original number of lamps as set out in the "SCHEDULE OF LAMPS" of this agreement: provided, however, that whenever Municipality shall order Company to increase the size of any lamp supplied hereunder, payments thereafter shall, because of such change, be increased in accordance with the schedule of charges herein set out in "SCHEDULE OF RATES", for the size lamp ordered. Bills for ornamental street lighting service hereunder shall be presented monthly by Company.

Subject to deductions for outage credits as herein provided and to increases as hereinabove in this section provided in case lamps of greater size are ordered installed by Municipality, the bills for ornamental street lighting service to be submitted by Company to Municipality for any month, shall be in an amount equal to one-twelfth (1/12) of the annual charges herein provided for the original number of lamps to be supplied as set forth in "SCHEDULE OF LAMPS" hereof. After such bills have been presented for ornamental street lighting service rendered during the preceding month, Municipality shall make full payment within the ten (10) days immediately following the date for the next regular meeting of the proper municipal authorities having the approval of such bills.

(9) **Delinquency.** If Municipality shall fail to pay any sum or sums of money as the same become due and payable for ornamental street lighting service rendered under the terms of this agreement, and such delinquency continues for a period of thirty (30) days or longer, Company shall have the right to discontinue service to the ornamental street lighting system until such sum or sums of money shall have been fully paid; or Company shall have the right to cancel this agreement in its entirety and may, at its option, remove any parts or all of the ornamental

street lighting equipment and system. Such discontinuance, cancellation or removal shall not release Municipality from any sum or sums of money owing to Company for ornamental street lighting service theretofore furnished to Municipality nor relieve Municipality of liability to respond in damages for such violation of the terms of this agreement.

(10) **Deduction for Outage Credit.** Municipality, through its Police Department or other authorized agent, shall make a report of any lamp or lamps which are out of service during proper lighting hours. A copy of such report shall be delivered to Company's local or district office, or to such representative as Company may designate to receive such reports.

Company shall restore any lamp or lamps to service before the proper hour for lighting on the same day as reported if the report of lamp outage is received before the hour of 12 o'clock noon, or Company shall restore any lamp or lamps to service before the proper hour for lighting on the next succeeding day if the report of lamp outage is received after the hour of 12 o'clock noon. In the event of the failure to restore any lamp or lamps to service as hereinbefore provided after receipt of the report hereinbefore provided for, Municipality shall, for each such lamp outage, receive a deduction for outage credit from the payment for ornamental street lighting service for the current month in accordance with the provisions of the "SCHEDULE OF OUTAGE CREDIT".

Such deductions for outage credit shall constitute the only liability that Company assumes or shall have because of the failure of any lamp or lamps to operate during lighting hours, and Company shall not be liable either to Municipality or to any third party or parties for any claims for damages directly or indirectly attributable to such lamp outage.

(11) **Rate Changes.** Should there be any change in the rates charged by Company for similar street lighting service to municipalities of the same class as the municipality which is a party to this agreement, the latter shall have the right to receive the same rates by entering into a new agreement therefor.

SECTION VI. This agreement shall become effective and binding upon the parties hereto when and as soon as it is approved by PUBLIC SERVICE COMMISSION (Indiana). Service under this agreement shall commence as soon as practicable, but in no event later than 180 days after the date this agreement is approved by said COMMISSION, and Company shall notify Municipality in writing as to the date on which service hereunder will be commenced. Unless and until otherwise ordered by said COMMISSION, the fixed term of this agreement during which Municipality shall take and Company shall render service hereunder, shall be until the 1st day of July, 1948, and after the said original fixed term this agreement shall continue in force and effect until one of the parties hereto gives the other party hereto sixty (60) days' written notice of its intention to discontinue the furnishing or receiving of service hereunder.

SECTION VII. From and after the date when service is commenced under this agreement, this agreement shall supersede any and all existing

agreements between the parties hereto under the terms of which ornamental street lighting service is supplied by Company to Municipality for the system or part of a system hereinabove described, and all such other agreements as to ornamental street lighting service or insofar as they cover such ornamental street lighting service, shall be deemed terminated and cancelled as of such date: provided, however, that such termination or cancellation shall not preclude or destroy the right of either party hereto thereafter to commence an action, and recover, for any unpaid bills or other damages resulting from any breach of such other agreement during the time the same was in force and effect.

SECTION VIII. All terms and stipulations heretofore made or agreed to in respect to ornamental street lighting service by Company to Municipality subsequent to the commencement of service hereunder, are merged into this written agreement, and no previous or contemporaneous representations or agreements made by any officers, agent or employee of Company or Municipality shall be binding upon either party in connection with the rendering or receiving of ornamental street lighting service hereunder unless contained herein.

SECTION IX. Municipality represents and covenants that all things required by law precedent to the lawful execution by Municipality of this agreement have been prepared, given, held, submitted, furnished and properly done and performed.

SECTION X. This agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors or assigns.

IN WITNESS WHEREOF the parties hereto have caused quadruplicate copies of this agreement to be duly executed by their respective duly authorized proper officers, and their respective corporate seals to be duly affixed to such quadruplicate copies, and properly attested, all as of the day, month and year first above written.
